**Except as specifically described, the following disclosures regarding Rates, Dividends, Compounding and Crediting, Balance requirements and Limitations apply to all of the accounts:**

The Dividend Rate and Annual Percentage Yield (APY) on your accounts are set forth above. The APY is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. The Dividend Rate and APY may change monthly as determined by the Board of Directors. Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period. Dividends will be compounded and credited as set forth above. The Dividend period for all accounts is monthly beginning on the first calendar day of the month and ending on the last calendar day of the month. Dividends will begin to accrue on the first business day you make the deposit. If you close your account before accrued dividends are credited, dividends will not be paid. The Average Daily Balance is determined by adding the principal amount in the account at the end of each day, and dividing that figure by the number of days in the month. Transaction limitations will apply to Regular Savings, All Purpose Savings and Special Savings. You may make no more than six (6) transfers and withdrawals from Your Account to another Account of Yours or to a third party in any month by means of a preauthorized, automatic or internet transfer, by telephonic order or instruction, or by check, draft, debit card or similar order. If you exceed these limitations, your accounts may be subject to a fee or be closed. The minimum balance required to open each account is set forth above. Please refer to our Electronic Funds Transfer Disclosure for types of transactions permitted and usage limitations that apply.
